Mission Statement:

The McCrary Galleri was created to foster cultural literacy through the presentation of public arts education programs and special events in our communities.

The Galleri's primary mission is to assist in the professional development of visual, performing and literary artists.

Public Arts Education programs are offered for culturally diverse audiences in a variety of settings in order to enhance the awareness and understanding of the Galleri's membership and the community at-large.

Additionally, the Galleri seeks to facilitate the presentation of works of art which advance social, cultural, intellectual spiritual, political and aesthetic ideas and ideals.

Works by young and developing artists, as well as mid-career or mature artists, will be presented in a forum accessible to the general public in tandem with appropriate educational programming.

While such works may be commodified and offered for sale, contributions to a larger dialogue on the quality of artistic expression and community awareness will be of equal significance.

September 7 - 30

Through the Eyes of Children:

Sharing the Arts in Our Backyard
